

STEMCO Mechanical Hubodometer® Improvement – Serialization

To: All Distributors of STEMCO Wheel End Products

STEMCO is pleased to introduce an important update to our mechanical Hubodometer® line. This improvement adds a standard serial number on all mechanical Hubodometers®. This enhancement is a running change that will complete by the end of 2015. All STEMCO mechanical Hubodometer® part number series listed below will remain the same across the line.

This enhancement brings all STEMCO mechanical Hubodometers into compliance with the State of California’s Exemption for Low-Use vehicles in the State’s recent amendment to Title 13, Division 3: Chapter 1: Article 4.5: Section 2025 “Regulation to reduce emissions of diesel particulate matter, oxides of nitrogen and other criteria pollutants from in-use on-road diesel-fueled vehicles”, Section 2025(p)(4): Exemption for Low-Use Vehicles.

STEMCO PART NUMBER SERIES
650-XXXX
653-XXXX
654-XXXX
657-XXXX
658-XXXX
659-XXXX

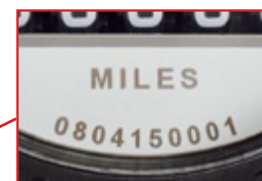

With this change, STEMCO mechanical Hubodometers continue to comply with prior requirements outside the United States (i.e., New Zealand).
