

Tag Axle King Pins

STEMCO Kaiser has a great solution for Steerable Tag axle King Pin Jobs including axles by: Westport, Watson Chalin, McNeilus, Hendrickson and more.

QWIKKIT™

Kaiser's **Spiral Steel Bushing** and **Grease-Grooved Pins**

In the Qwik Kit will reduce the installation - in many cases half the time - of a normal King Pin job because of our "No Ream" feature. With 300% more grease from day 1 we will extend life 4 times longer than the kit you replaced. This allows you will drive past 4 King Pin Jobs you would have done.

These are the most common kits and their cross-reference information:
